

ENGINEERING SCHOOL
Creating the future together

LETTER OF RECOMMENDATION

I have been informed of Mr. Anthime LEMAGNEN's efforts for an international internship at [REDACTED] and I would like to use this letter to give my very positive support to his application.

Anthime LEMAGNEN is a work-study student on the EPF campus of Montpellier engineering school, which he joined after a competitive examination in September 2022. As a mathematics teacher and pedagogical coordinator, I have had to meet regularly with Mr. Anthime LEMAGNEN. He is an open, curious student with real leadership. During his training, he was able to set up a real reflective approach allowing him to identify an effective working method based on perseverance, organization and flawless regularity, which allowed him to progress effectively. Anthime LEMAGNEN has always been a studious, committed, perceptive and responsive student. Always mobilized to progress, he validated his ECTS credits by ranking at the top of the class with very good results in both know-how and interpersonal skills.

All his qualities he has of course put at the service of his studies but also of community life. In particular, he actively participated with a lot of commitment and a great sense of responsibility in the Tutoring to accompany the 1st and 2nd year students as well as in many communication operations as a member of the TeamCom presenting and representing the EPF.

As part of his training, Mr. Anthime LEMAGNEN has worked on various projects, I can testify that his positive energy, his ability to communicate well and his management qualities allow him to carry out great achievements. I am convinced that Anthime LEMAGNEN will continue to excel in all his future endeavors thanks to his commitment, passion and professionalism.

For all these reasons, I give a very favorable opinion and unreservedly recommend the candidacy of Mr. Anthime LEMAGNEN.

Montpellier, 25 september 2024

Marie Pierre CUMINAL
Teacher and Pedagogical Manager
